

# BREAKING UP is Hard to Do!

But are all the accounting needs of your business being fulfilled?

## You Have Nothing To Lose By Keeping Your Options Open

We stay in relationships out of habit, even though it may not be the best decision for us. **Perhaps it's time to review the quality and effectiveness of your current relationship** and decide if an accounting change is warranted.

### Business Owners Resist Change Because:

- They think all accountants are the same
- Change is too much of a hassle
- It's too awkward to break off with your current accountant

Reluctance to change is understandable, but recognizing the benefits of change is **essential to your business' success**. Experience the Yudichak CPA PC difference! We are not just number crunchers and tax filers who service your account – we are proactive and business savvy. We are constantly looking for ways to increase your wealth and advance your business success!

## Take One Step!

### Call Us for a totally free business checkup.

Your business can reap huge benefits by changing to a more future-focused, business-oriented accountancy firm – a firm that will help you reach your business goals more quickly – a firm that will help you reduce liabilities and increase tax returns. A quick consultation with us will reveal to you whether you are getting all the services you've been paying for.

We understand the difficulties associated with change and will help you work through them if you decide to convert to our services. We will write a letter to your current accountant explaining that you are leaving, then call them to have your files sent over to us. No awkward explanations or phone calls for you – **just a better direction for your business' future!**

"Damon Yudichak is a diligent and consistent professional and an outstanding CPA. I've worked with Damon since 2009 and I've felt like a valued customer since the beginning of our relationship. He and his firm are a vital link to my business."
